

DOES EVERY UNIVERSITY TRAINING PROGRAM HAVE KASAS?

Every graduate program in communicative disorders that is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA) is required to have assessment of student's learning. Each program differs in how they assess student's learning outcomes, but each program needs to meet the same requirements for demonstrating graduates' knowledge-based and skill-based competencies using a valid, reliable set of assessment strategies and tools.
